Matthew Clegg - Support Engineer

m@cle.gg

+44 (0) 7478 575533

Over **15** years of industry experience, developing with client, server and infrastructure technologies. Skilled in automation cloud orchestration tools (Kubernetes, Terraform, Helm, Ansible etc), server-side technologies (Python, PHP, Ruby) & client front-end languages (HTML, CSS and JavaScript). I have experience creating and hosting websites using complex math & basic logic for most common content management systems. My previous work experience includes projects with numerous digital agencies, startups and corporations.

DevOps Engineer   *Kensington, London*   **2015 – 2016**

Setup monitoring and alerting alert systems. Debug production issues across services and levels of the stack(s). Document every action for resolving produciton issues to turn into repeatable actions and then into automation. Design, build and maintain core infrastructure pieces to allow autoscaling to support hundreds of thousands of concurrent users.

Hobbies & interests

My favourite hobbies include long distance cycling, short distance running and hiking.

I am also interested in cooking and photography.
